SSL VPN Client Setup manual to access the e-resources of Library (for Anroid/ iOS Users)

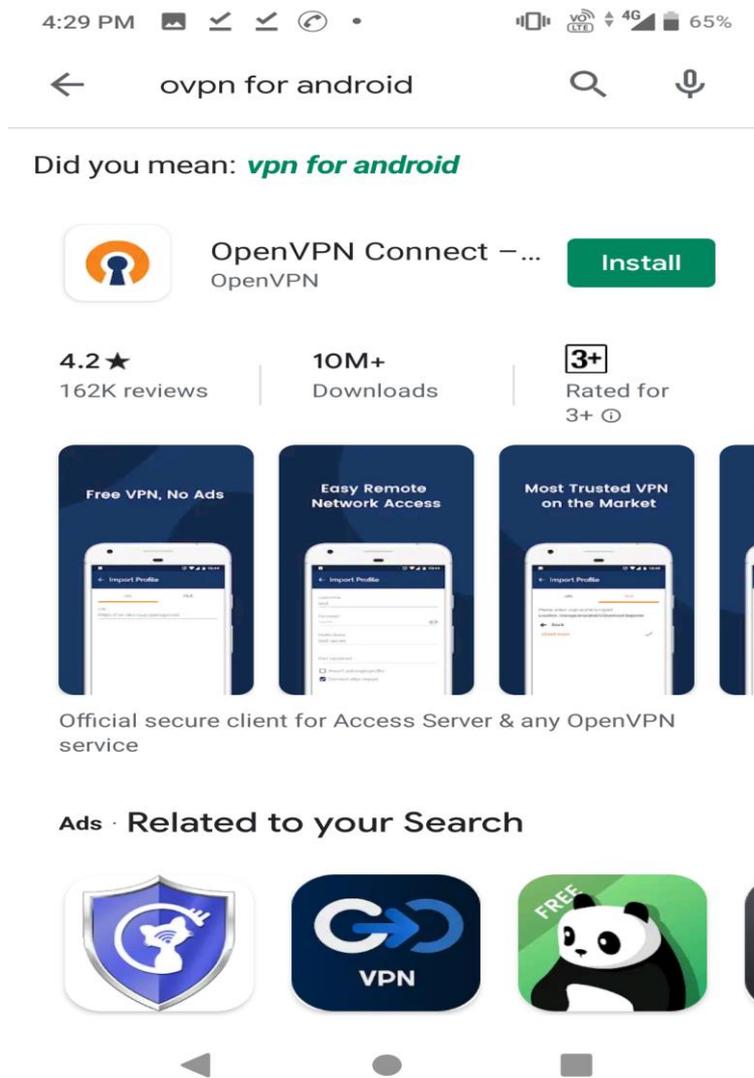

Step 1: Open <https://118.185.209.242:4443> in browser (preferably Google Chrome or similar) and enter username / password of VPN user

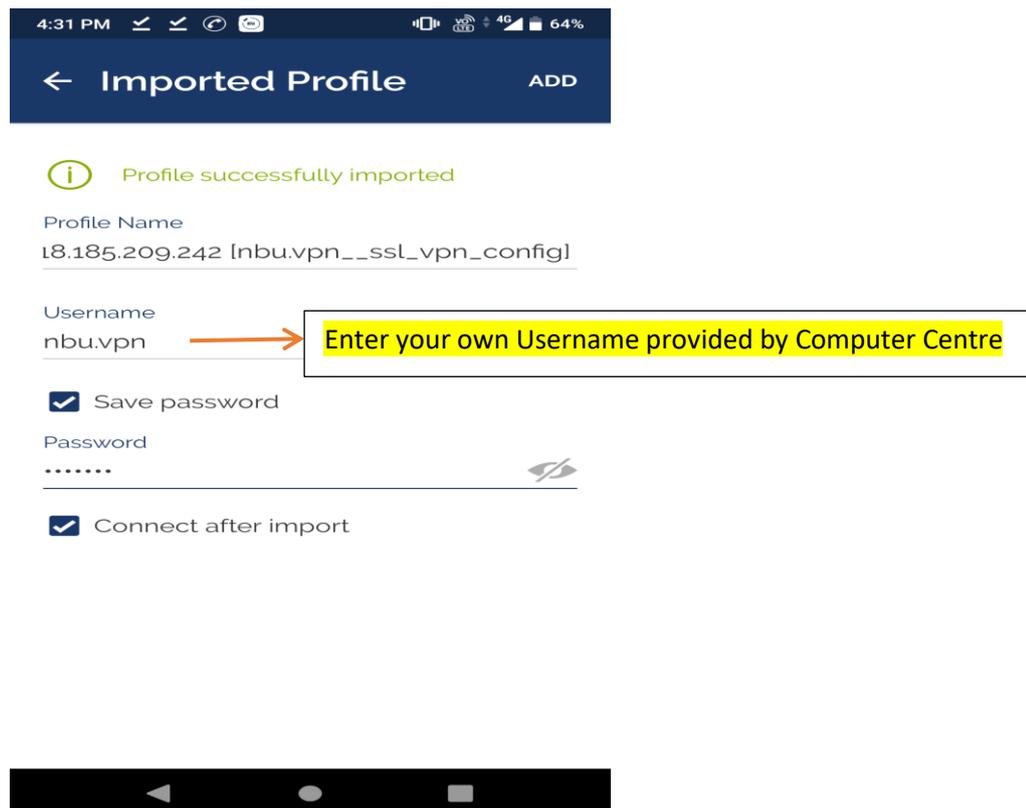

Step 2: On next page click on **Download Configuration for Android/ iOS** and save the ovpn file

Step 3: Install any Open VPN apps from a Play Store/ App Store to access the ovpn file

Step-4: Import the ovpn file(downloaded at Step-2)using Open VPN apps and connect the NBU VPN using authentic user credential.

Now the user can browse the e-resources of NBU Libray (listed by the Library authority) through his/her web browser.
